Enjoy a unique VIP Driving Experience weekend

Get behind the wheel of Audi's premier super-car, the 610 horsepower Audi R8 V10 plus, and discover its full potential on the only Formula 1 Circuit in The United States; Circuit of the Americas (COTA), in Austin, TX.

In this VIP experience, participants get to feel the majestic sportiness of driving the Circuit of the Americas at the wheel of Audi top-of-the-line sport vehicles like the TT-RS, the RS3 and finally drive the R8 V10 Plus and explore the physical limits of vehicle handling. The experience is built around race course sector training with racing activities like slalom and drifting. This method allows participants to get acquainted with all of the race track's and vehicles particular features and work out the racing line one bit at a time, before they proceed to tackle the entire F1 circuit.

Once you are in the pilot seat of the Audi R8 V10 Plus, you will feel the adrenaline in your body like never before. This is a once-in-a-lifetime experience. What are you waiting for?
